

HB 45 -- County Building Codes

Sponsor: Hinson

This bill authorizes the county commission of any county to adopt regulations regarding building codes, including permit, license, and inspection fees, and to establish a building commission to prepare the regulations as specified under Sections 64.170 to 64.200, RSMo. Currently, only the county commission of a county of the first or second classification has this authority.

The bill also exempts from building code regulations a structure used solely for certain specified agricultural purposes.
